

FORECAST FOR JANUARY 20

*Cloudy; 100% chance
of productivity.*

Cloud Computing Brown Bag Seminar

Sponsored by Quincy Area Chamber of Commerce Technology Committee

Thursday, Jan. 20, 2011—12:00 to 1:00 p.m.

Oakley Lindsay Center - Lindsay Conference Room

Presented by: Dean La Velle, Webcentric
& Thomas Cane, Cane Tech Group

What is Cloud Computing? Cloud Computing is simply using data or programs stored on the Web instead of locally on your computer. If you've used Gmail, Flickr, etc. - you've been "in the cloud." With most of us having access to broadband Internet connections, it's now more convenient - and economically sensible - than ever to store data and use programs that are Web-based rather than desktop-based.
